Scope and Aim

The Croatian Communication and Information Society (CCIS), the Sister Society of the IEEE ComSoc, in cooperation with University of Split launches the Journal of Communications Software and Systems (JCOMSS). JCOMSS journal focuses on high-quality, internationally reviewed papers, that advance the state-of-art and applications in communications software engineering and communications systems particularly including new techniques, reports on experiments with analysis of performances, and prototypes. The subjects covered by this journal include all aspects in communications software and systems in wired and wireless communications and multimedia technologies.

Guidelines for Authors

Authors wishing to submit papers should send an electronic version (postscript or PDF files ONLY) with a separate cover letter, which contains the paper title, authors with affiliations, and a 200-word abstract. Journal papers should be concisely written and be no longer than 20 double-spaced pages (12-point font, approximately 26 lines per page with 16.5 cm/6.5-inch line length) excluding figures. Papers must have no more than a total of ten figures and tables. It is essential that each manuscript be accompanied by a 75- to 200-word abstract clearly outline the scope and contributions of the paper and a list of up to five index terms. All papers must be written in English. Introductory discussion should be kept at a minimum, and material published elsewhere should be referenced rather than reproduced or paraphrased. Authors should strive for maximum clarity of expression, bearing in mind that the purpose of publication is the dissemination of technical knowledge and that an excessively complex or poorly written presentation can only obscure the significance of the work described. Care should be taken in the organization of the paper, such that a logical and consistent progression of thought is evident. It is strongly suggested that theorems, derivations, calculations, and other elements of a paper which are not essential to the continuity of the text be placed in Appendices. Authors with language difficulties should, whenever possible, obtain the assistance of a colleague fluent in English before submitting a manuscript for publication.

Paper submission

All paper submissions will be handled electronically. Please use the [EDAS Journal Management System](#) to manage paper submissions.
